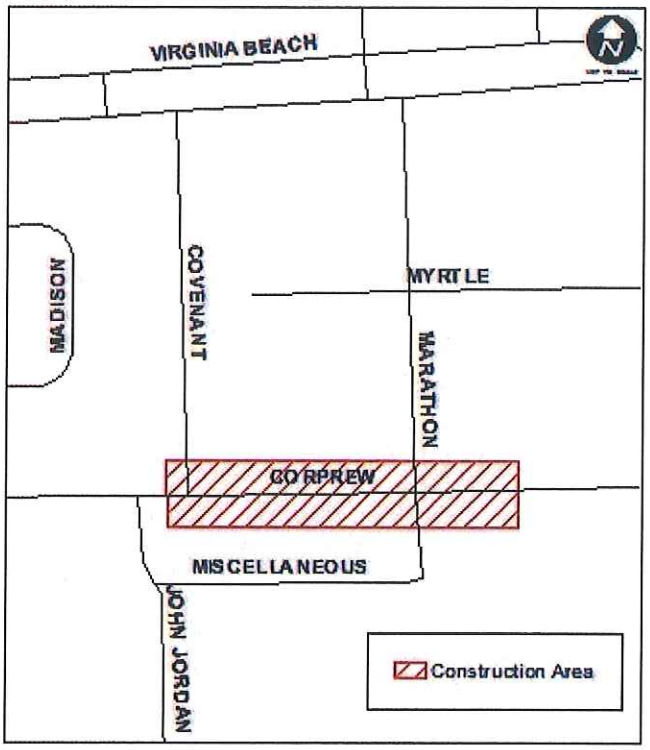
Corprew Avenue Sewer Replacement

Dear Valued Customer,

The City of Norfolk Department of Utilities has hired TA Sheets General Contractors, Inc. to replace a failing sanitary sewer pipe along Corprew Avenue near the intersection of Marathon Avenue as shown on the map to the right.



This emergency replacement will begin on Monday, August 1, 2016, with anticipated completion within 1 to 2 months. Work will include the installation of new sanitary sewer pipe and the restoration of the roadway. Also, the customer service connections along this section of Corprew Avenue will be replaced.

Sanitary sewer services and water services will be maintained throughout construction. Through traffic and on-street parking will be restricted in the construction area for the duration of the project. Traffic detours will be established in the surrounding areas before construction starts.

The City and our contractor will do our best to minimize the unavoidable disruptions associated with the construction. If you have any questions or concerns regarding this project, please do not hesitate to contact the City's Construction Inspector, Mr. Sean Simmons. He can be reached by cell phone at (757) 374-0126 to respond quickly. You may also contact Gabriel Phelps, Project Manager at (757)-664-6737.

Sincerely,

Eric Tucker
Assistant Director of Utilities
