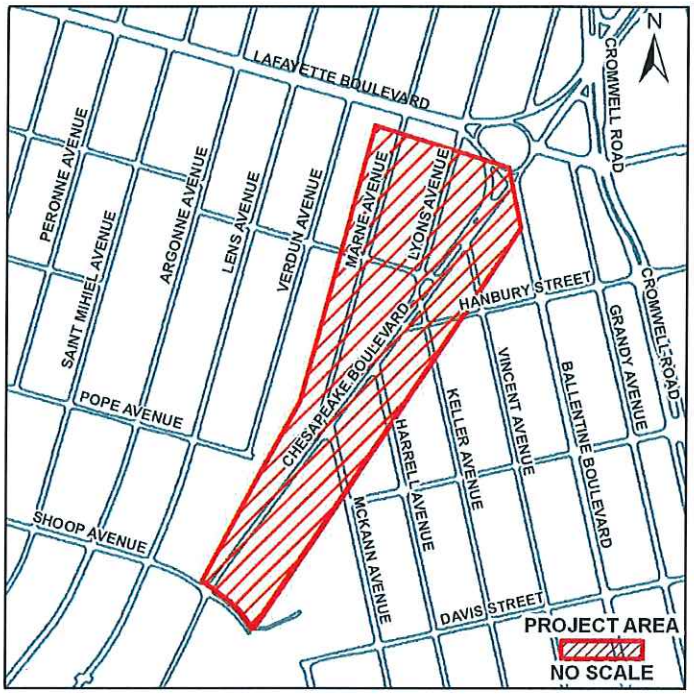
Fairmount Park Water & Sanitary Sewer Replacement

Dear Valued Customer,

The City of Norfolk Department of Utilities is pleased to have scheduled a $4 million improvement project in your neighborhood. The project area (shown on the map to the right) will receive new sanitary sewer, water, and storm drain pipes and fully resurfaced streets.



The City's contractor, Gaston Brothers, is planning to begin work this spring and finish in the summer of 2016. Prior to construction you may notice utility markings and survey work in the neighborhood.

The City and our contractor will do our best to minimize the unavoidable disruptions associated with the construction.

If you have any questions regarding this project, please do not hesitate to contact the City's onsite construction inspector, Melissa Barry. She can be reached by cell phone at 613-9225 to respond quickly. You may also contact the project manager, Dan Riley, at 664-6740.

The Department of Utilities appreciates your patience during this project and looks forward to providing you with improved sanitary sewer and water infrastructure.

Sincerely,

Kristen M. Lentz, P.E.
Director of Utilities
