City Council;

Today's memo provides you with information from the July 19th Council meeting. Highlights include:

- Norfolk Connect
- Pavement Plan
- Storm Water Fee Reduction Program

Also included in this memo is information on an ordinance that will come before you Tuesday. The ordinance is a grant for the construction of Church Street Station studio apartments for previously homeless single adults.

Today, we celebrated the 5th Anniversary of the Tide! MacArthur Square was packed with people marking the occasion. A group from Virginia Beach accompanied Virginia Beach Mayor Will Sessoms to the event.

Throughout the weekend, the public can ride the Tide for free as a special thank you gift for 5 years of support.

MEMORANDUM

TO: City Council

FROM: Lori A. Crouch, Corporate Communications Director

COPIES TO: City Clerk, City Attorney

SUBJECT: Council Interests

DATE: August 19, 2016

I hope you enjoyed your break. Today's memo includes information from the previous Council meeting and upcoming Church Street Station ordinance.

Pavement Plan: Attached to the memo is a copy of the two year pavement plan map from Public Works. This information is also posted on the City's website.

Connect Norfolk: Under the leadership of Steven DeBerry, Chief Information Officer, the city has been working diligently in several areas such as: renegotiating the COX Franchise agreement, increasing access to public Wi-Fi, expanding city-wide broadband capacity, ensuring city facilities are equipped with high-speed internet, replacing the current institutional network and installing fiber throughout the city.

In addition, Steven and his team developed a technology work group called ConnectNorfolk. This group will help create a vision and develop recommendations regarding the next generation of technology infrastructure and high-speed internet services for the City of Norfolk.

ConnectNorfolk includes stakeholders from the business industry and the community. Representatives include the military, GNC, Sentara, NRHA, Port of Virginia, Dominion Enterprises, Grow, DIA, TCC, ODU, NSU, and Norfolk Public Schools. The first team meeting was held earlier this month at Slover Library.

Free Public WiFi: As part of Connect Norfolk, Steven DeBerry and his IT team have expanded the city's free public WiFi. The public can log on for free on the 1st floor of City Hall by logging onto CON-Public (CON=City of Norfolk). This offer is in addition to the Dominion Enterprises partnership providing free WiFi in MacArthur Square.

Church Street Station: On Tuesday, an ordinance will come before you to approve a grant from the City of Norfolk to Virginia Supportive Housing from the Capital Improvement Program ("CIP") Fund, in the amount of \$707,000 for the construction of the Church Street Station Studio Apartments for previously homeless single adults on property located at 2000 Church Street.

The Church Street Station Studio Apartments will provide 40 additional units of permanent supportive housing for persons experiencing homelessness and 40 units of housing for single adults entering the work force. It will be the latest tool developed to carry out the Council's policy to end homelessness in Norfolk. The city, in cooperation with its neighboring communities and in partnership with Virginia Supportive Housing hosted the first of six such projects when the Gosnold Apartments opened in 2006. This nationally recognized regional approach to creating housing has provided additional units for Norfolk's vulnerable citizens in Chesapeake, Portsmouth and Virginia Beach. In total, the support of the City Council over the years has added 320 units of housing in the region and has created a pathway back home for many of our single adult citizens experiencing homelessness.

Tree Pruning: Residents are encouraged to remove tree suckers and small limbs/branches (1 inch diameter and smaller) on city trees in the right of ways adjacent to their property when they mow the grass. This will provide a more manicured streetscape and enhance the beauty of Norfolk's neighborhoods year round. All pruning must be done from the ground with non-powered hand tools. Small suckers can easily be removed by rubbing them off while they are just emerging and supple.

Topping of trees is not an approved pruning practice and is never allowed. "Topping" is the removal of the upper portion/canopy of the tree. Topping leads to a shorter lifespan, can increase decay, and decreases structural integrity.

To help residents, community groups, and other volunteers who wish to prune the crape myrtles in their neighborhoods, Parks & Urban Forestry has teamed up with the Norfolk Master Gardeners. The City Forester trains the Master Gardeners on basic pruning principles, and the Master Gardeners lead volunteer tree pruning groups. The hand tools and safety equipment are provided by the City.

The Landscape & Urban Forestry webpage has information on pruning and the City's tree maintenance schedule.

Unauthorized pruning can result in fines and the assessment of the tree value which would be billed to the resident.

Bayne Ave. Lighting – Both Public Works and Urban Forestry crews reviewed the lighting on the street. All but one of the street lights are operational. Dominion Power is aware of the inoperable light. Urban Forestry crews will prune tree limbs away from the lights within the next two weeks.

Stormwater Fee Reduction Program - The state law that authorizes the storm water utility fee was modified in 2009 to require each municipality to implement a utility waiver and reduction program. To comply with state law, staff has coordinated with the City Attorney's office to (1) modify the City code, 41.1, that authorizes the waiver and reduction program and (2) develop a policy on implementation of this program. David Ricks, Director of Public Works will provide you an overview and recommendations for a Storm Water Fee reduction program at the upcoming Council meeting.

Have a good weekend.

C. COUNCIL INTERESTS

1. Councilwoman Graves:

- Requested Council be briefed on City Planning Commission items a few weeks before they have to vote on them especially when there is a denial or dissention.

2. Councilwoman Johnson:

- Expressed concern with tall grass on school grounds and asked that the grass be kept cut at all schools across the city even during the summer when school is out.
- Referencing the new school opening on Princess Anne Road, she asked where they are with the Virginia Beach Boulevard and Princess Anne Road study and also expressed concern with traffic going extremely fast on Princess Anne Road near the school.

3. Councilwoman McClellan:

- Expressed concern about the traffic signal on Hampton Boulevard at ODU about whether or not the countdown signals are working properly.
- Received a lot of calls about code enforcement and stated that there is an opportunity here for citizens to report code concerns using their mobile apps by taking a picture and sending it straight to the impact call center.

D. 21st STREET PAVILION SHOPS

George Homewood, Director of Planning, reported as follows:

- This is a request for a Pedestrian Commercial Overlay (PCO) Development Certificate sign waiver to allow the partial reconstruction of an existing monument style sign.
- The proposal is to replace the existing sign cabinet with a different shaped sign cabinet that would be exactly the same height (13.5 feet) and exactly the same square footage (58 square feet) with a slightly different shape.
- Allowed signage in the 21st Street PCO is a monument-style sign, six feet in height with a maximum size of 32 square feet.

The sign requirement calls for a monument sign, not elevated on a pole and can be no more than six feet in height with a maximum size of 32 square feet. This is what the Ghent Business Association asked to be placed in the PCO rules and regulations when the PCO was established. The existing sign is 13.5 feet tall, which is twice as tall as the six feet. It is not a monument sign, but is more of a pole sign with a square footage of 58 as opposed to 32.

The Planning Commission recommended denial of the request on a 5 to 1 vote, noting that the existing sign is nonconforming because it is twice as tall and twice as big and will be replaced with a nonconforming sign twice as tall and twice as big. The applicant has made no effort to make the sign more conforming to the rules that are in play, so the Planning Commission recommended denial. Staff suggested that by removing some of the brick from the pedestal the sign can be lowered. The idea of the PCO is to have signage that is not necessarily aimed at automobiles traveling on the road, but aimed at drawing pedestrians into the area. This item will be on the July 19th City Council public hearing agenda.

E. PROMOTING HOUSING CHOICE

John Kownack, Executive Director, Norfolk Redevelopment and Housing Authority, reports on this item as follows:

- HUD considers housing affordable if a household is spending no more than 30% of its income on housing.
- 19,000 Norfolk households cannot afford affordable housing.
- Norfolk has 8,035 units of assisted housing – 29% of the region’s total.
- Housing Choice goals include: 1) redevelop 1,200 units over the next decade; 2) no involuntary displacement of residents; 3) facilitate development of 3,600 affordable, quality rental housing units; and 4) work with human services agencies to ensure current and future residents have capacity to succeed with housing choice.
- Plan for renovation and redevelopment were reviewed for Young, Diggs, Grandy, Oakleaf, Tidewater and Calvert public housing communities with a reduction of units in Young and Diggs.
- It is proposed that city council establish a consensus building group to oversee efforts to improve assisted rental housing communities and improve housing choice with members coming from city council, NRHA, school board, planning commission, the judiciary, private developers, community stakeholders and philanthropic leaders.

F. SMART PROCESSING UPDATE

George Homewood, Director of City Planning, reported on this matter as follows:

- Improvements in the city’s development process were reviewed.
- Smart permitting, went live on July 5, 2016. This is an electronic permitting system that automated buildings permits and inspections, and allows for scheduling inspection online.
- Next steps include transitioning code enforcement in August, online applications and payment in August and tracking planning applications in the fall.
- Planning process improvements include no longer requiring special exception renewals when adding or changing managers, no longer requiring floor plans for new eating and drinking establishments and no longer requiring development certificates for change of use.
- The Zoning Ordinance is being rewritten with completion expected in mid-2017.

G. COMMUNITY SERVICES BOARD PERFORMANCE

The following proponents spoke regarding this matter:

Tim Daffron, Norfolk Christian Holding Corporation, 255 Thole Street, stated that the school tried to address the concerns of the community. Fuel tanks have been removed, alternatives have been developed for the overflow traffic from the parking lot and lights, work continues on a compromise plan.

Frank Batten Jr., 7438 Flicker Street, stated he understands the concerns of the community, and that he supports the application. The school provides scholarships to those who cannot afford to attend and that the school has served the City of Norfolk well.

Bob Miller, 5033 Rouse Drive, Virginia Beach, was present to support the application, but did not speak.

The following opponents spoke concerning this matter.

Ada Blair, 119 Filbert Street, a longtime resident of Filbert Street stated that the letter that was sent to them from the school was misleading, it only talks about 260 Filbert Street. If the rezoning is allowed, they can come back with other phases. She said when they agree to one thing, the school comes back with something else. They were told there would never be a field, stadium or lights. She also stated that there are three Council members who were on the Council in 2011 when Norfolk Christian made this commitment.

Eva Yelity, 217 Filbert Street, a new resident, stated that she was unaware of all the changes that were going on, that if she had known about them she would never have purchased her house. She also stated that the officials from the school were rude and disrespectful.

James Holmes, 214 Filbert Street, stated that he lives adjacent to the area under consideration and that the school needs to come up with a compromise plan and get approval from the community.

Daphne Perminter-Russell, 233 Filbert Street, educator, stated the school's plans keep changing. She also said if you was living in that neighborhood, you would not want this to happen to you.

Fernando Russell Sr., 233 Filbert Street, stated that the community does not agree with what the school is doing. Dust and dirt trails on the street are a constant problem. It seems as if the school is trying to force residents out.

MEMORANDUM

TO: The Honorable City Council

REVIEWED: Ronald H. Williams, Jr. Deputy City Manager

General Plan Amendment from Single-Family Traditional to Institutional at 260 Filbert Street and change of zoning from IN-1 (Institutional), conditional IN-1, and R-8 (Single-Family) to conditional IN-1 at 255 Thole Street and 260 Filbert Street
SUBJECT: – Norfolk Christian Schools

DATE: August 19, 2016

On the August 23, 2016 docket, City Council will be reviewing two requests by Norfolk Christian Schools: a general plan amendment from Single-Family Traditional to Institutional at 260 Filbert Street and a change of zoning from IN-1 (Institutional), conditional IN-1, and R-8 (Single-Family) to conditional IN-1 at 255 Thole Street and 260 Filbert Street.

Norfolk Christian Schools was established in 1952 and offers pre-K through grade 12 programs at various locations throughout the area. The school site located at 255 Thole Street houses the Middle and High School grades, as well as the Administrative Offices. In 2011, the school sought a rezoning from residential to institutional in order to develop multi-purpose fields (western portion of the school site along Midfield Street) and an athletic building, as well as codify their site/campus plan. Norfolk Christian had recently acquired the properties where the proposed fields were to be located and the rezoning was needed to move forward with the construction of the facilities. The rezoning ordinance also prohibited lighting of the multi-purpose fields to ensure that all athletic activities would cease by sunset or 8:00 p.m., whichever was earlier. Norfolk Christian proposes to keep the area at the corner of Midfield and Filbert Streets as a multi-purpose field and retain this proffer. In 2013, Norfolk Christian obtained a street closure of a portion of Seekel Street east of Midfield Street, which ran through the school property. The purpose of this street closure was to transfer ownership of the land from the City of Norfolk to Norfolk Christian in order to allow for the development of a regulation size field for football, lacrosse, soccer, and field hockey. Norfolk Christian proposes to modify the original site plan from 2011 to show this athletic field and to allow for a reconfiguration of proposed facilities, including a bus parking area along Thole Street and a new parking lot next to this athletic field on the Thole Street side of the campus. The property at 260 Filbert Street is owned by Norfolk Christian and will be combined with the school property. In order to construct an academic building at this site, it must be rezoned to IN-1 to match the zoning for the rest of the school property (see attached conceptual site plan for the detailed proposal and site conditions).

Since portions of this property are designated Single-Family Traditional by the City's general plan, *plaNorfolk2030*, a plan amendment to Institutional is necessary. The proposed amendment will create a cleaner line of demarcation, therefore staff recommended approval. The property has multiple zoning designations, and staff suggested changing the zoning to create a single, unified district for the campus. Cleaning up those inconsistencies, along with the fact that the new campus plan includes site improvements such as improved accessibility, landscaping, etc., led staff to recommend approval of the request.

Due to perceived communication issues, along with a general lack of trust, between Norfolk Christian and the Bolling Brook Civic League directly to the south of this site, the Planning Commission continued this application from the April 28, 2016 Planning Commission public hearing to the June 23, 2016 public hearing. The Planning Commission directed Norfolk Christian to attempt to work out their differences with the Civic League, particularly regarding the location of the bus parking lot, removing the bus fueling tank from the site, and additional landscaping along Filbert Street to further screen the development from the houses to the south. The Planning Commission was also concerned about the vacant house at 260 Filbert Street and its detrimental aesthetic impact on the neighborhood.

At a meeting scheduled by Norfolk Christian with members of the Bolling Brook Civic League on May 16, 2016, many comments were heard. This meeting provided more clarity on the neighborhood's desires regarding specific site modifications. Following the meeting, Norfolk Christian modified the original site plan to include a complete removal of the bus fueling tank from the site, relocation of the bus parking area from the Filbert Street side to the Thole Street side, and additional landscaping along Thole, Midfield, and Filbert Streets to screen the proposed athletic field at the corner of Thole and Midfield Streets and the parking lot that was originally proposed at the corner of Midfield and Filbert Streets. Norfolk Christian has also proffered the demolition of the vacant house at 260 Filbert Street once the fully satisfied deed of ownership has been recorded.

After conducting a duly advertised public hearing on June 23, 2016, at which the applicant and members of the Bolling Brook Civic League provided comments, the City Planning Commission voted **4 to 2** (Mr. Houchins was absent for this vote) to recommend **approval** of the application. The dissenting votes were based on concerns raised by residents of the neighborhood. The residents felt that Norfolk Christian had not communicated with them enough about the development plans and that the conversion of the area at the corner of Midfield and Filbert Streets to a parking lot is not the best use for that site. They were also concerned about the use of lighting within this parking lot and the potential effects on the residences to the south along Filbert Street.

The Norfolk City Council held a public hearing on July 19, 2016 to review this application. At the hearing, the applicant and members of the Bolling Brook Civic League again provided comments. The City Council continued the application for many of the same reasons as the Planning Commission, citing concerns about communication with the neighborhood. Since the hearing, Norfolk Christian has modified the proposal, reverting the plan for the corner of Midfield and Filbert Streets back to a multi-purpose field, as shown in the 2011 site plan. This relocates the proposed parking lot from that site to the Thole Street side of campus next to the athletic field. In addition, the new site plan includes a community meeting room within the proposed educational building addition.

1. Virginia Power's 1954 Easement is hereby relocated as shown on Exhibit B, attached to this Agreement ("Relocated Easement").
2. Dear Ms. Buckwalter,

This letter is to confirm the actions of the Willoughby Civic League at their regular February 11, 2016 meeting at the Mary Pretlow Library. At that meeting a presentation was given regarding the above request and after some discussion and opportunities for questions from the league members, a vote was taken. League members in attendance were asked to vote regarding the street closure either for or against by a show of hands and verbal approval. The League voted in favor of the project.

Thank you.

ORDINANCE No.

R-1

AN ORDINANCE GRANTING A PEDESTRIAN COMMERCIAL OVERLAY DISTRICT DEVELOPMENT CERTIFICATE TO PERMIT THE RENOVATION OF AN EXISTING, NONCONFORMING SIGN ON PROPERTY LOCATED AT 222 WEST 21 STREET.

- - -

BE IT ORDAINED by the Council of the City of Norfolk:

Section 1: - That a Pedestrian Commercial Overlay District (PCO) Development Certificate is hereby granted to permit the renovation of an existing, nonconforming sign on property located at 222 West 21st Street. The property to which this PCO Development Certificate applies is more fully described as follows:

Property fronts 300 feet, more or less, along the northern line of East 21st Street beginning 125 feet, more or less, from the western line of Omohundro Avenue and extending westwardly; property also fronts 335 feet, more or less, along the southern line of West 22nd Street; premises now or formally known as the "21st Street Pavilion Shops" and numbered 222 West 21st Street.

Section 2:- That the PCO Development Certificate granted hereby shall be subject to the following condition:

- (a) Any subsequent changes made to the project, as described in the staff report and as approved through this development certificate process, shall be reviewed as an amendment to the development certificate.

Section 3:- That the Council expressly finds that waivers from the requirements of § 11-21.3(h) of the Zoning Ordinance of the City of Norfolk, 1992, (as amended) regarding development standards for signs are appropriate because the application submitted, while not strictly in accord with certain general regulations, meets public purposes, is not contrary to planning principals contained in the adopted Downtown Norfolk Plan or general plan and provides public protection to an equivalent or

greater degree, and because, in the particular circumstances of the case, strict application of these regulations is not necessary for the accomplishment of public purposes or the provision of public protection at this time or in the future; wherefore such waivers are hereby granted.

Section 4:- That this ordinance shall be in effect from the date of its adoption.

City of Norfolk, Virginia

Subject: **General Plan Amendment from Single-Family Traditional to Institutional at 260 Filbert Street and change of zoning from IN-1 (Institutional), conditional IN-1, and R-8 (Single-Family) to conditional IN-1 at 255 Thole Street and 260 Filbert Street – Norfolk Christian Schools**

Approved: 
Ronald H. Williams, Jr., Deputy City Manager

Ward/Superward: 2/6

Item Number: **R-02**

I. **Staff Recommendation: Approval.**

II. **Commission Action: By a vote of 4 to 2, the Planning Commission recommends **Approval**.**

III. **Requests:**

- General Plan Amendment from Single-Family Traditional to Institutional – 260 Filbert Street.
- Change of zoning from IN-1 (Institutional), conditional IN-1, and R-8 (Single-Family) to conditional IN-1 – 255 Thole Street and 260 Filbert Street.

IV. **Applicant: Norfolk Christian Schools**

V. **Description:**

- These applications were continued from the previous City Council public hearing on July 19 to allow more time for Norfolk Christian to consider revisions to their development plans to accommodate the neighborhood's concerns.
- The new plan relocates the parking lot from the corner of Midfield and Filbert Streets to the Thole Street side of the campus next to the athletic field.
- This request would allow Norfolk Christian to:
 - Relocate the bus parking area, expanding the existing front parking lot adjacent to Thole Street.
 - Construct a new parking lot next to the athletic field on the Thole Street side of the campus.
 - Combine the property at 260 Filbert Street with the school property at 255 Thole Street.
 - Depict future expansions of the principal building for academic, athletic, and fine arts purposes.

- The proposed additions and site modifications will undergo the Site Plan Review process, which will require all site development to adhere to the regulations of the *Zoning Ordinance*, including landscaping, vehicular circulation, and stormwater improvements.
- The conceptual site plan includes new landscape plantings along Filbert Street, buffering the parking lot, and along Thole Street to buffer the proposed athletic field.
- The proffered conditions require the following:
 - The existing bus fueling tank at 255 Thole Street shall be removed and no bus fueling tanks shall be located on site in the future.
 - The smaller multi-purpose field at the corner of Filbert Street and Midfield Street shall be restricted to practice fields and physical education classes and will not be lighted to ensure that all athletic use is ceased by sunset or 8:00 p.m., whichever is earlier.
 - The proposed athletic, academic, and fine arts buildings shall maintain a twenty-five (25) foot setback from the property line on Filbert Street.
 - The landscape buffers shown on conceptual site plan shall consist of plants determined by the Department of Recreation, Parks, and Open Space to be sufficient to provide a sound and sight barrier along the fence line.
- A multi-purpose field was approved at the corner of Midfield Street and Thole Street in 2011. This is where the athletic field is located under the proposed proffers.
- Since the proposal will create a cleaner line demarcating the boundary between the school and the neighborhood, for a section of Filbert Street, and the site improvements will be made to improve accessibility to the school and to improve the characteristic of its southern boundary, the proposed amendment can be supported by *plaNorfolk2030*.

A. Summary of Request

- The property is bounded by Thole Street to the north, Filbert Street to the south, Midfield Street to the west, and the Lafayette River wetlands to the east.
- This request would allow Norfolk Christian School to:
 - Modify the original site plan for the school (255 Thole Street) to allow for a reconfiguration of proposed facilities, including a bus parking area along Thole Street, a new parking lot at the corner of Filbert and Midfield Streets, a new sidewalk along Midfield Street, and an athletic field with a scoreboard and flagpole.
 - Rezone property at 260 Filbert Street in order to demolish the existing, vacant house and construct an academic building in its place.
- The property at 260 Filbert Street includes parcels that will be vacated and combined with the school property at 255 Thole Street.

B. Plan Consistency

Analysis

Plan Amendment

- *plaNorfolk2030* designates this site as Single-Family Traditional, making the proposed use inconsistent with *plaNorfolk2030*.
 - An amendment to institutional is necessary for the proposed rezoning to be consistent with *plaNorfolk2030*.
- The Identifying Land Use Strategies chapter of *plaNorfolk2030* identifies the Institutional land use category as a location for a wide range of institutional users, including public and private schools and their surrounding recreational fields.
 - It further calls for recognizing the importance of accessibility, infrastructure capacity, and the relationship of non-residential uses with the surrounding neighborhood.
- Since the proposal will create a cleaner line demarcating the boundary between the school and the neighborhood, for a section of Filbert Street, and the site improvements will be made to improve accessibility to the school and to improve the characteristic of its southern boundary, the proposed amendment can be supported by *plaNorfolk2030*.

Change of Zoning

If the plan amendment is approved, the rezoning request would be consistent with *plaNorfolk2030*.

C. Zoning Analysis

i. General

- The site located at 255 Thole Street is currently zoned IN-1 and conditional IN-1 and is being operated as a private school. The existing, principal building is approximately 84,000 square feet and houses the Middle and High School grades, as well as the Administrative Offices.

- The site located at 260 Filbert Street is currently zoned R-8 and includes the vacant house (approx. 2,000 sq. ft.).
 - In order to construct an academic building at this site, it must be rezoned to IN-1.
- The proposed project consists of the following:
 - At 255 Thole Street:
 - Change the uses of portions of the site from the multi-purpose fields previously shown on the rezoning exhibit approved in 2011 to an athletic field and parking lot.
 - The multi-purpose field at the corner of Midfield Street and Filbert Street would change to a parking lot with one ingress and egress driveway on Midfield Street and additional landscaping between the parking lot and the adjacent residential property at 214 Filbert Street.
 - The multi-purpose field at the corner of Midfield Street and Thole Street would change to an athletic field with a scoreboard and flagpole. There will also be additional landscaping along Thole Street.
 - A new bus parking area and parking lot restriping at the northeastern corner of the school site along Thole Street.
 - Educational Building addition (approx. 6,020 sq. ft.) to the southern side of the school facing Filbert Street.
 - Athletic Building addition (approx. 6,910 sq. ft.) also to the southern side of the building facing Filbert Street. This was previously shown on the rezoning exhibit from 2011.
 - New sidewalk along Midfield Street.
 - At 260 Filbert Street:
 - Fine Arts Building addition (approx. 6,050 sq. ft.).

ii. Parking

- The site is located in the Suburban Character District. The parking requirement for educational facilities is determined by the Zoning Administrator.
 - There is sufficient parking on-site. No reductions in parking on-site are proposed.

iii. Flood Zone

- The property is located in the AE (7.6 Base Flood Elevation), X (Shaded), and X (Low to Moderate) Flood Zones.
 - The finished floors of the three proposed additions are required to be elevated three feet above the Base Flood Elevation (BFE), which is 10.6 feet, or flood-proofed to the BFE.

D. **Proffered Conditions**

- The applicant has voluntarily proffered the following conditions:
 - The site shall be designed generally in accordance with the conceptual site plan prepared by MSA, P.C., dated May 19, 2016, revised June 7, 2016, entitled, "Exhibit for Rezoning," attached hereto and marked as "Exhibit A," subject to any

revisions required by the city to be made during the Site Plan Review and building permit plan review processes.

- The existing bus fueling tank at 255 Thole Street shall be removed and no bus fueling tanks shall be located on site in the future.
- The proposed parking lot to be located at the corner of Filbert Street and Midfield Street as shown on the attached "Exhibit A" shall not be used for overnight bus parking. It may be lit with dark sky, low profile, security lighting. On-site lighting shall be directed and shielded so as not to cast glare onto any adjacent residential properties.
- The proposed athletic, academic, and fine arts buildings shall maintain a twenty-five (25) foot setback from the property line on Filbert Street.
- The landscape buffers shown on the attached "Exhibit A" shall consist of plants determined by the Department of Recreation, Parks, and Open Space to be sufficient to provide a sound and sight barrier along the fence line.
- The structure located at 260 Filbert Street shall be demolished. A demolition permit shall be applied for once the fully satisfied deed of ownership has been recorded.

E. Transportation Impacts

- Institute of Transportation Engineers (ITE) figures estimate that that the proposed school expansion will generate 283 new vehicle trips per day.
- Based upon ITE data, the single family home on this site would be expected to generate 10 weekday trips while the proposed school additions would be expected to generate 293 trips on weekdays.
- Thole Street adjacent to the site is not identified as a severely congested corridor in either the AM or PM peak hours in the current update to regional Hampton Roads Congestion Management analysis.
- Thole Street adjacent to the site is not an identified priority corridor in the City of Norfolk Bicycle and Pedestrian Strategic Plan.

F. Historic Resources Impacts

The site is not located within a federal, state, or local historic district.

G. Public Schools Impacts

N/A

H. Environmental Impacts

- The proposed additions and site modifications will undergo the Site Plan Review process, which will require all site development to adhere to the regulations of the *Zoning Ordinance*, including landscaping, vehicular circulation, and stormwater improvements.
- The conceptual site plan includes new landscape plantings along Filbert Street, buffering the parking lot, and along Thole Street to buffer the proposed athletic field.

- The proffered conditions require the following:
 - The existing bus fueling tank at 255 Thole Street shall be removed and no bus fueling tanks shall be located on site in the future.
 - The proposed parking lot to be located at the corner of Filbert Street and Midfield Street as shown on the attached "Exhibit A" shall not be used for overnight bus parking.  - The proposed athletic, academic, and fine arts buildings shall maintain a twenty-five (25) foot setback from the property line on Filbert Street.
 - The landscape buffers shown on conceptual site plan shall consist of plants determined by the Department of Recreation, Parks, and Open Space to be sufficient to provide a sound and sight barrier along the fence line.
- A multi-purpose field was approved at the corner of Midfield Street and Thole Street in 2011. This is where the athletic field is proposed under the proposed proffers.

A. Summary of Request

- The site is located on the east side of Colley Avenue south of 50th Street.
- The applicant proposes to convert this existing commercial building to allow half of it to be used as a residential unit.

B. Plan Consistency

- The proposed rezoning is consistent with *plaNorfolk2030*, which designates this site as commercial.
- The *Central Hampton Boulevard Area Plan* identifies this site as a location for office, research, retail, and/or multiunit residential.
- The *Central Hampton Plan* includes recommendations as to the form of new development on this site, including:
 - Defining the street edge along public streets by aligning building facades to the setback line.
 - Locating active uses with 60% transparent glazing on the ground floors of commercial buildings and 40% transparent glazing for residential uses.
 - Providing ground-level entrances at least every 100 feet along the sidewalk.
 - Treating façades to differentiate the ground-level commercial use from upper stories and to sensitively transition to adjacent single-family uses.
 - Installation of trees and other similar landscaping between the building edge and the sidewalk.
- In order to be fully consistent with *plaNorfolk2030* the recommendations of the *Central Hampton* plan must be incorporated into the proposed development.

C. Zoning Analysis

i. General

- The site is currently zoned C-2 which allows mixed use development by special exception.
 - The *Zoning Ordinance* also requires that 50% of the first floor of a mixed use development must be a commercial use.
- The applicant proposes to convert half of the existing commercial building into a residential unit.
 - Both the residential unit and the commercial unit will be 865 square feet.

ii. Parking

- The applicant has a lease for parking for the residential unit at 5008 Colley Avenue which is located directly to the north.

iii. Flood Zone

- The property is in an X (Low to Moderate) and an X (Shaded) Flood Zones which are low risk flood zones.

D. Transportation Impacts

- Institute of Transportation Engineers figures estimate that that the proposed addition of one dwelling unit to this existing office location will generate 7 new vehicle trips per day.
- Colley Avenue near the site is not identified as a severely congested corridor in either the AM or PM peak hours in the current update to regional Hampton Roads Congestion Management analysis.
- Colley Avenue adjacent to the site is an identified priority corridor in the City of Norfolk Bicycle and Pedestrian Strategic Plan.

E. Historic Context and Impacts

The building is not located in any local, state or federal historic district.

F. Public School Impacts

- School attendance zones include Larchmont Elementary School (95% utilization), Blair Middle School (77% utilization) and Maury High School (95% utilization).
- Approximately 1 school aged child could be generated by the proposed development (0.1 school aged children per unit).
- Given the low number of potential students and the existing school capacity, no significant school impacts are anticipated.

G. Environment Impacts

- For the building to be utilized for both residential and commercial, a new Certificate of Occupancy will be required.

H. Surrounding Area/Site Impacts

- The site is surrounded by single-family and commercial uses.
- The addition of a mixed use development would not have a negative impact on the surrounding land uses.

Staff Report	Item No. 3	
Address	4013 Colley Avenue	
Applicant	Howerin Construction Corp.	
Request	Special Exception	Mixed Uses
Property Owner	Allan Zeno	
Site Characteristics	Site Area	12,500 square feet
	Future Land Use	Commercial
	Zoning	C-2 (Corridor Commercial)
	Neighborhood	Highland Park
	Character District	Traditional
Surrounding Area	North	C-2: The Wave

	West	R-8 (Single-Family): Single-family homes

A. Summary of Request

- The site is located on the southwest corner of W. 41st Street and Colley Avenue.
- The applicant proposes to develop this vacant land with a mixed use development.

B. Plan Consistency

- The proposed rezoning is consistent with *plaNorfolk2030*, which designates this site as commercial.
- The *Central Hampton Boulevard Area Plan* identifies this site as a location for office, research, retail, and/or multiunit residential.
- The *Central Hampton Plan* includes recommendations as to the form of new development on this site, including:
 - Defining the street edge along public streets by aligning building facades to the setback line.
 - Locating active uses with 60% transparent glazing on the ground floors of commercial buildings and 40% transparent glazing for residential uses.
 - Providing ground-level entrances at least every 100 feet along the sidewalk.
 - Treating façades to differentiate the ground-level commercial use from upper stories and to sensitively transition to adjacent single-family uses.
 - Installation of trees and other similar landscaping between the building edge and the sidewalk.
- In order to be fully consistent with *plaNorfolk2030* the recommendations of the *Central Hampton* plan must be incorporated into the proposed development.

C. Zoning Analysis

i. General

- The site is currently zoned C-2 which allows mixed use development by special exception.
 - The *Zoning Ordinance* also requires that 50% of the first floor of a mixed use development must be a commercial use.
- The applicant proposes to construct a three story mixed use building:
 - 2,000 square feet of commercial on the first floor
 - 5 residential units on the 1st, 2nd and 3rd floors
 - The site will be accessed from one entrance on West 41st Street

ii. Parking

- Parking will be located to the rear of the building.
- The site is located in the Traditional Character District which requires:
 - 1.6 parking spaces per residential dwelling unit (8 parking spaces)
 - 1 parking space per 300 square feet for retail sales/service (7 parking spaces)
 - 16 spaces are provided.

iii. Flood Zone

- The property is in an X (Low to Moderate) and an X (Shaded) Flood Zones which are low risk flood zones.

D. Transportation Impacts

- Institute of Transportation Engineers figures estimate that that this proposed mixed use development of office space and 5 apartments will generate 56 new vehicle trips per day.
- Colley Avenue near the site is not identified as a severely congested corridor in either the AM or PM peak hours in the current update to regional Hampton Roads Congestion Management analysis.
- Colley Avenue adjacent to the site is an identified priority corridor in the City of Norfolk Bicycle and Pedestrian Strategic Plan and is currently marked with sharrows.

E. Historic Context and Impacts

The site is currently vacant and is not located in any local, state or federal historic district.

F. Public School Impacts

- School attendance zones include Larchmont Elementary School (95% utilization), Blair Middle School (77% utilization) and Maury High School (95% utilization).
- Approximately 1 school aged child could be generated by the proposed development (0.1 school aged children per unit).
- Given the low number of potential students and the existing school capacity, no significant school impacts are anticipated.

G. Environment Impacts

- As a new development, it will have to complete the Site Plan Review Process with all the standards set forth in the *Zoning Ordinance*.
- The proposed project will be required to fully comply with the city's stormwater management provisions.

H. Surrounding Area/Site Impacts

- The site is surrounded by single-family and commercial uses.
- The addition of a mixed use development would not have a negative impact on the surrounding land uses.

Site Characteristics	Site/Building Area	29,700 sq. ft./3,185 sq. ft. church (546 sq. ft. assembly hall) and 1,095 sq. ft. day care
	Future Land Use Map	Single-Family Traditional
	Zoning	R-6 (Single-Family)
	Neighborhood	Fox Hall
	Character District	Suburban
Surrounding Area	North	C-2 (Corridor Commercial): Norfolk Southern railroad right-of-way
	East	R-8 (Single-Family): Single-family homes
	South	R-6: Single-family homes
	West	R-6: Single-family homes

A. Summary of Request

- The site is located at the southwest corner of Kerrey Avenue and South Cape Henry Avenue, within the Fox Hall neighborhood.
- The applicant proposes to reuse the home at 1555 Kerrey Avenue to accommodate a Day Care Center operated by the church.
- The existing structures located at 1565 and 1575 Kerrey Avenue will continue to function as a church, with new off-street parking being added to the site.

B. Plan Consistency

- *plaNorfolk2030* designates this site as Single-Family Traditional, meaning the proposed special exception is inconsistent with the plan.
 - However, since small-scale religious institutions, such as this one, are generally compatible with residential uses, the proposed special exception can be recommended despite the inconsistency.

C. Zoning Analysis

i. General

- The applicant proposes to construct two parking lots on the site, to be located between the three structures on the site and located behind the 25-foot front setback to maintain the residential continuity along the Kerrey Avenue street frontage.
- In the 1960s the structure at the corner of South Cape Henry Avenue and Kerrey Avenue was utilized as a church.
 - This predates the current requirement for a special exception to operate a religious institution in a residential district.
 - The use of this building as a religious institution is legally nonconforming (grandfathered).
- In the 1990s the current church purchased the two adjacent homes and now proposes to use them for classrooms and a day care center.
- The expansion of the religious institution (classrooms) requires a special exception as does the uses of the last building as a day care center.
- Religious institutions and accessory child day care centers are permitted within the R-6 (Single-Family) zoning district with special exceptions.
- The site is surrounded primarily by single-family homes.
- The conceptual site plan submitted by the applicant and the attached conditions ensure compliance with the adopted general plan and all *Zoning Ordinance* requirements for the proposed uses.

ii. Parking

- For a religious institution of this size located within the Suburban Character District, the *Zoning Ordinance* requires that the 546 square-foot assembly hall provide a minimum of 11 parking spaces.

- The 1,095 square foot day care center requires four parking spaces.
 - In total, the applicant is proposing 16 off-street parking spaces on the site, bringing the site into full compliance with *Zoning Ordinance* requirements.

iii. Flood Zone

The property is located in the X Flood Zone, which is a low-risk flood zone.

D. Transportation Impacts

- Institute of Transportation Engineers figures estimate that that the proposed addition of day care center to this existing church will generate 87 new vehicle trips per day.
- Kerrey Avenue adjacent to the site is not an identified priority corridor in the City of Norfolk Bicycle and Pedestrian Strategic Plan.

E. Historic Resources Impacts

- The building is not located within a federal, state, or local historic district.
 - Since the buildings on the site are at least 50 years old, the structures could potentially meet the criteria for designation as a federal, state or local historic resource under the Department of Historic Resources guidelines.

F. Public Schools Impacts

The site is located in the Coleman Place Elementary School, Lake Taylor Middle School and Booker T. Washington High School Attendance Zones.

G. Environmental Impacts

- The continued use of the site as a religious institution, and the proposed day care center, should not adversely impact the surrounding uses.
- The proposed parking lots will undergo the Site Plan Review process, which will require all site development to adhere to the regulations of the *Zoning Ordinance*, including landscaping and buffering, vehicular circulation, and stormwater improvements.

H. AICUZ Impacts

- The site is located within a Noise Zone with a Day-Night Average Sound Level of 65-70 Decibels (DNL 65) as identified within the Hampton Roads regional Joint Land Use Study (JLUS), Air Installations Compatibility Use Zones (AICUZ) planning map.
 - The DNL 65 Noise Zone is a low impact noise zone and the proposed uses are compatible within the zone.

I. Surrounding Area/Site Impacts

- The applicant will be required to install a sidewalk around the perimeter along the public rights-of-way.
- By requiring the proposed uses to conform to the conditions listed below, granting the special exceptions should not have a negative effect on the surrounding area.

J. Payment of Taxes

The owner of the property is current on all real estate taxes.

K. Civic League

Notices were sent to the Fox Hall and Coleman Place Civic Leagues on June 16.

L. Recommendation

Staff recommends **approval** of the special exception requests, considering compliance with *Zoning Ordinance* requirements, subject to the conditions below:

Special Exception Conditions – Religious Institution

- (a) The site shall be generally designed in accordance with the conceptual site plan prepared by Blakeway, dated June 6, 2016, attached hereto and marked as "Exhibit A," and all existing driveways and parking areas on the site shall be removed and replaced with the driveways and parking areas as shown on the conceptual site plan, subject to any revisions required by the City to be made during the Site Plan Review and building permit plan review processes.
- (b) Prior to the operation of the Day Care Center, a resubdivision plat to combine the three parcels and vacate all interior lot lines shall be approved and recorded.
- (c) A sidewalk shall be installed along the Kerrey Avenue and South Cape Henry Avenue public rights-of-way.
- (d) Landscaping shall be installed and maintained at the base of any freestanding sign in accordance with the provisions of section 16-6 of the *Zoning Ordinance of the City of Norfolk, 1992* (as amended). The landscaping shall be maintained at all times.

A. Summary of Request

- The site is located at the northwest corner of E. Little Creek Road and Buffalo Avenue, on the southern edge of the South Bayview neighborhood.
- The proposal is to redevelop the site with a new building and a commercial drive-through.

B. Plan Consistency

The proposed special exception is consistent with *plaNorfolk2030*, which designates this site as Commercial.

C. Zoning Analysis

i. General

- The applicant proposes to demolish the existing nonconforming structure on the site and construct a new Wendy's restaurant building with a commercial drive-through.
- A commercial drive-through is permitted in the C-2 district by special exception.
- A special exception is required for the drive-through, because the existing nonconforming site improvements are being removed.
- The site is surrounded by a mix of commercial and institutional uses.
- The conceptual site plan submitted by the applicant and the attached conditions ensure compliance with the adopted general plan and all *Zoning Ordinance* requirements for a commercial drive-through.

ii. Parking

- For an eating establishment of this size located within the Suburban Character District, the *Zoning Ordinance* requires that the 2,612 square foot establishment provide a minimum of 17 parking spaces and sufficient room to accommodate two bicycles.
 - The applicant proposes to provide 26 parking spaces and a bike rack to accommodate at least two bicycles.
 - The proposed number of parking spaces, based on the proposed square footage of the building, exceeds the parking maximum for commercial uses established in the *Zoning Ordinance*.
 - As part of Site Plan approval, the applicant will have the choice to either reduce the number of parking spaces provided, or to provide additional landscaping and stormwater improvements to offset the additional impervious parking proposed on the site.

iii. Flood Zone

The property is located in the X Flood Zone, which is a low-risk flood zone.

D. Transportation Impacts

- Institute of Transportation Engineers figures estimate that reconstruction of this existing restaurant with drive through will generate 163 fewer vehicle trips per day by decreasing total square footage slightly.
- Little Creek Road adjacent to the site is not identified as a severely congested corridor in either the AM or PM peak hours in the current update to regional Hampton Roads Congestion Management analysis.
- The site is near transit services with Hampton Roads Transit bus route 21 (Little Creek) operating near the site.
- Little Creek Road adjacent to the site is not identified as a priority corridor in the City of Norfolk Bicycle and Pedestrian Strategic Plan.

E. Historic Resources Impacts

The site is not located within a federal, state, or local historic district.

F. Public Schools Impacts

The site is located in the Larrymore Elementary School, Azalea Middle School, and Norview High School Attendance Zones.

G. Environmental Impacts

- The construction of an eating establishment with a drive-through lane should not adversely impact the surrounding uses.
- The proposed redevelopment will undergo the Site Plan Review process, which will require all site development to adhere to the regulations of the *Zoning Ordinance*, including landscaping and buffering, vehicular circulation, and stormwater improvements.

H. AICUZ Impacts

N/A

I. Surrounding Area/Site Impacts

By requiring this use to conform to the conditions listed below, granting the special exception should not have a negative effect on the surrounding area.

J. Payment of Taxes

The owner of the property is current on all real estate taxes.

K. Civic League

- Notices were sent to the South Bayview, Bel-Aire, and Larrymore Lawns Civic Leagues on June 16.
- A letter of support was received from the South Bayview Civic League.

L. Recommendation

Staff recommends **approval** of the special exception request, considering compliance with *Zoning Ordinance* requirements, subject to the conditions below:

- (a) The site shall be generally designed in accordance with the conceptual site plan prepared by MSA, P.C., dated June 13, 2016, revised June 22, 2016, attached hereto and marked as "Exhibit A," subject to any revisions required by the City to be made during the Site Plan Review and building permit plan review processes.

Project Narrative
City of Norfolk Special Exception Application
for a Commercial Drive-Thru
Wendy's Restaurant #471
1380 E. Little Creek Road

Norfolk, VA
MSA Project No. 13110AF

The applicant, Wendy's Properties, LLC ("Applicant") currently operates a 2,940 square foot Wendy's Restaurant store #471 with a commercial drive-through on the subject parcel located at 1380 East Little Creek Road. The restaurant is permitted by right; however, the drive-through is a legal non-conforming use. As part of a national campaign the Applicant wishes to renovate and upgrade its existing restaurant. Due to the demolition and removal of the existing restaurant City staff advised that any redevelopment of the site would trigger the requirement to obtain a Special Exception for a commercial drive-through.

The existing eating establishment has been in operation with a commercial drive-through for over 30 years. The proposed renovation will include a new smaller state of the art facility approximately 2,612 square feet. The proposed parking spaces have been reduced by 18 spaces and additional pervious surface has been added to the site to provide landscape buffers around the perimeter. Per the City Transportation Division comments the easternmost curb cut access on East Little Creek Road near Buffalo Avenue will be eliminated. A new concrete entrance and sidewalk with handicap accessible ramps per City standards will be provided on East Little Creek Road. The curb cut access on Buffalo Ave will also be replaced with a new concrete entrance per City standards. The new facility will have a pedestrian friendly patio, bike rack and enhanced green space. If approved, the replacement of the existing Wendy's Restaurant with a commercial drive-through will result in the investment of over \$1,750,000 in this property.

I'm sure there will be no objection from our civic league members to the Wendy's plan for updating their restaurant. However, when we meet July 14th I will bring it up and send you another note the very next day just to verify this and make it official.

I. **Recommendation:** Adopt Ordinance

II. **Applicant:** Carroll C. Ballard, III & Caroline C. Ballard
1546 Blanford Circle
Norfolk, Virginia 23505

III. **Description:**
This agenda item is an ordinance granting permission to Caroll and Caroline Ballard (the "Ballards") to encroach into the City of Norfolk's (the "City's") right-of-way of Commonwealth Avenue at 1546 Blanford Circle with a fence and landscaping hedges.

IV. **Analysis:**
An encroachment is an object or structure that infringes into the City's rights-of-way or property. Norfolk City Code, Section 42-10, requires all encroachments into the rights-of-way to be approved by City Council. The encroachment in this location will allow the Ballards to replace an existing wood fence with a 4' black aluminum fence and enhance it with landscaping hedges.

V. **Financial Impact:**
Liability insurance has been provided naming the City as additional insured in the amount of \$250,000; therefore, there should be no financial risk to the City. The City did not charge a fee for this encroachment.

VI. **Environmental:**

VIII. Board/Commission Action:

BE IT ORDAINED by the Council of the City of Norfolk:

Section 1:- That permission is hereby granted to Carroll and Caroline Ballard (the "Ballards") to encroach into the right-of-way of Commonwealth Avenue at 1546 Blanford Circle with an existing aluminum fence and landscaping hedges, as shown on Exhibit A attached hereto, such permission being further subject to the following conditions:

- (1) That this permission is expressly subject to the right of revocation by the Council and that in the event of such revocation, the Ballards, or their successors and assigns, shall immediately remove the encroaching structures.
- (2) That upon the removal of the encroaching structures or any part thereof, the authority hereby granted shall cease and terminate.
- (3) That the Ballards, or their successors and assigns, at their own cost and expense, shall take out and keep in full force and effect during the term of the encroachment general liability insurance with a company authorized to do business in the Commonwealth of Virginia, insuring and naming the City of Norfolk ("City") as an additional insured in the amount of at least \$250,000.00 each occurrence and \$500,000.00 general aggregate against liability from claims, actions and suits that may be asserted or brought against the City and/or the Ballards, and their successors and assigns, for any injury to, or death of any person or persons, or for any damage to, or destruction of property resulting from the installation,

maintenance, or existence of said encroaching structures, with evidence of such insurance being provided to the City.

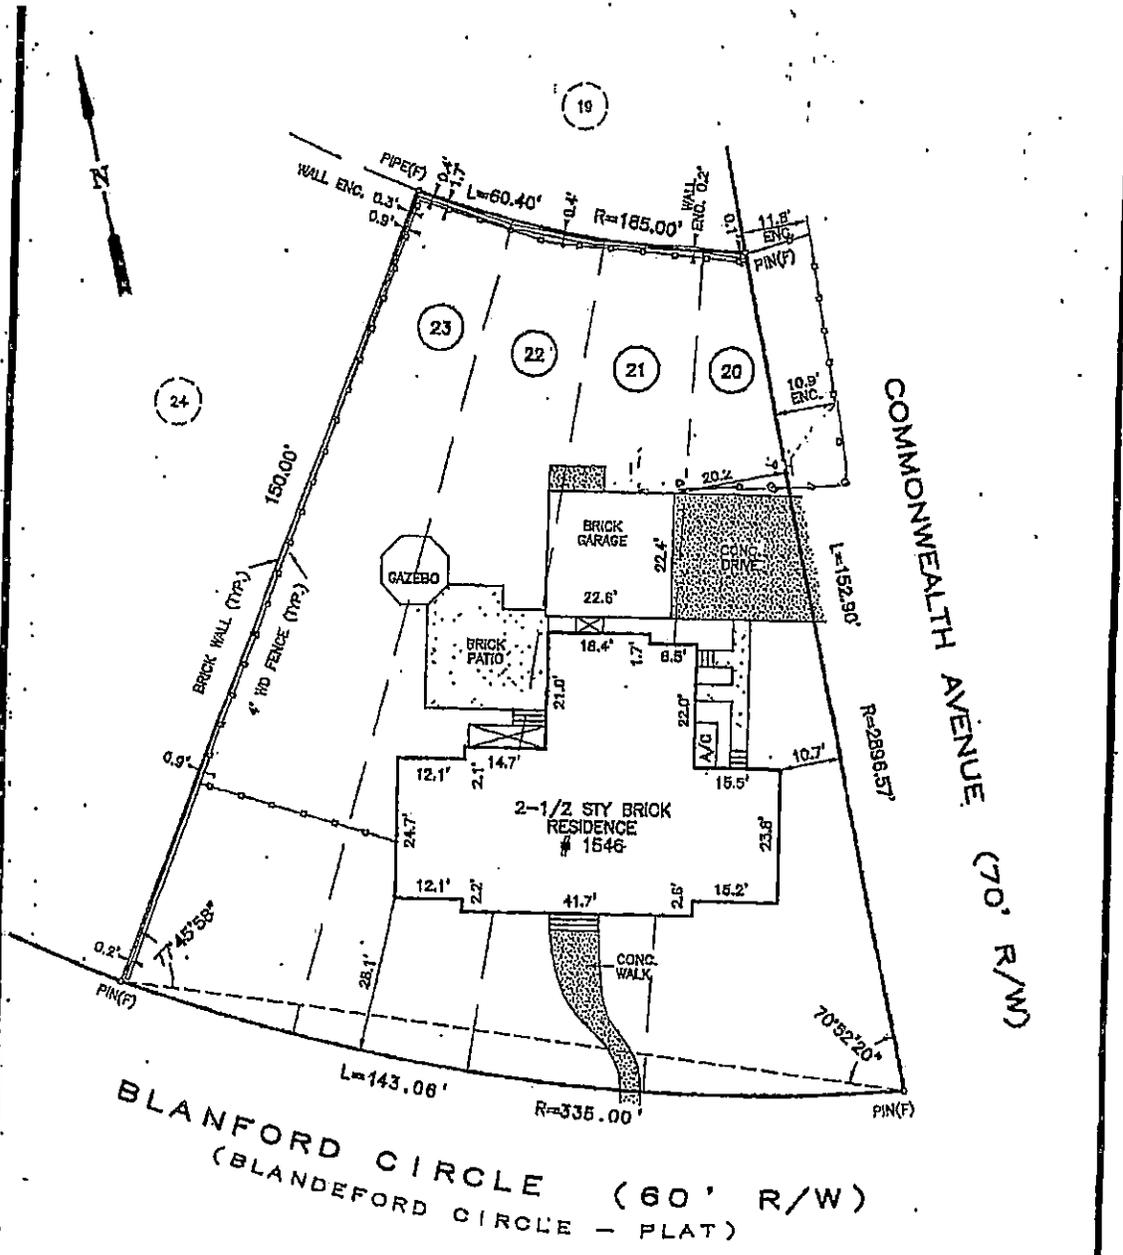

- (4) That the City shall not be responsible for any damage to the encroaching structures, including replacement and reinstallation costs, resulting from the City's operation, maintenance, repair, or replacement of any utilities located in the right-of-way of Commonwealth Avenue, the location being shown on Exhibit A.

Section 2:- That the failure of the Ballards, or their successors and assigns, to fully comply with all requirements and conditions set forth herein shall act as an automatic revocation of the permission granted hereby.

Section 3:- That the use of the said encroaching structures shall be deemed an acceptance by the Ballards, and their successors and assigns, of all conditions to which the permissions herein are granted.

Section 4:- That this ordinance shall be in effect from and after its adoption.

Subject: VDOT FY2017 Primary
Extension Program – Six Roadway
Segments to be Repaved

Reviewed: 
Ronald H. Williams, Jr., Deputy City Manager

Ward/Superward: Citywide

Approved: 
Marcus D. Jones, City Manager

Item Number:

I. **Recommendation:** Adopt Ordinance

II. **Applicant:** N/A

III. **Description:**

This agenda item is an ordinance to establish six FY2017 Primary Extension projects along the following roadway segments: Lower Hampton Boulevard, Upper Hampton Boulevard, Tidewater Drive, Eastbound Virginia Beach Boulevard, Westbound Virginia Beach Boulevard, and Monticello Avenue; and to accept the Programmatic Project Administrative Agreement between the Virginia Department of Transportation (“VDOT”) and the City of Norfolk (the “City”) for these projects.

IV. **Analysis:**

- Through the Primary Extension Funding category, the City was allowed to apply for funding for six of its worst condition pavements, as measured by VDOT’s statewide FY2017 Pavement Condition Data.
- All six segments are also among VDOT’s highest density corridors, as measured by the 2012 Annual Average Daily Traffic data.
- All six segments are also located on Primary Extension Routes on the National Highways System.
- These funds will be used to supplement planned expenditures for pavement maintenance, and will not reduce the City’s current and future maintenance of effort to ensure adequate pavement conditions in the City.
- The six pavement projects will aid in vehicular and pedestrian safety and access. The construction of these projects will improve the City’s infrastructure and improve quality of life, with the potential for encouraging economic development within the city.

V. Financial Impact:

- VDOT funding of \$1,000,000 will come from state maintenance funds.
- These projects are 100% reimbursable by VDOT; no locality match is required.

Cost Breakdown

Project	UPC	VDOT Funding
Lower Hampton Boulevard – from 39 th Street to 21 st Street	109402	\$ 182,000
Upper Hampton Boulevard – from Porter Street to the Hampton Boulevard Bridge	109403	\$ 261,000
Tidewater Drive – from Rugby Street to the Lafayette River Bridge	109405	\$ 83,000
Virginia Beach Boulevard – from Newtown Road to Kempsville Road	109407	\$ 152,000

Item Number: **R-12**

I. **Recommendation:** Adopt Ordinance

II. **Applicant:** N/A

III. **Description:**

On December 8, 2015, Norfolk City Council adopted Resolution 1,630 in support of FY 2017 Revenue Sharing projects. This agenda item is an ordinance to accept Virginia Department of Transportation (“VDOT”) funds for three FY 2017 Revenue Sharing projects: the *West Ocean View Flyover Project*, the *Citywide ADA Ramp Construction, Phase 3 Project*, and the *Granby Street/Bayview Boulevard Intersection Improvements Project*; and to accept the amended Programmatic Project Administrative Agreement between VDOT and the City of Norfolk (the “City”) for inclusion of these projects.

IV. **Analysis:**

- *West Ocean View Flyover Project*
The project will replace a functionally obsolete bridge with an at-grade intersection alternative.
- *Citywide ADA Ramp Construction, Phase 3 Project*
The project will include the addition or replacement of ADA ramps and new sidewalk to connect ramps at the Eastern Virginia Medical Center and in Larchmont, locations that are ineligible to receive Community Development Block Grants (CDBG).
- *Granby Street/Bayview Boulevard Intersection Improvements Project*
The project will aid in pedestrian safety and access. The construction of this project will improve the City’s infrastructure and improve quality of life, with the potential for encouraging economic development within the City.

V. Financial Impact:

- VDOT funding of \$1,770,000 will come from state revenue sharing funds.
- Funding participation of the City's fifty percent share of these projects, in the amount of \$1,770,000, will come from funds appropriated in the City's Capital Improvement Program.

Cost Breakdown

Project	VDOT Funding	Required Total City Match	Total Funding
West Ocean View Flyover	\$1,270,000	\$1,270,000	\$2,540,000
Citywide ADA Ramps, Phase 3	\$ 250,000	\$ 250,000	\$500,000

WHEREAS, the LOCALITY may, in accordance with §33.1-23.05 of the *Code of Virginia* (1950), as amended (the *Code*), and Commonwealth Transportation Board (CTB) policy, submit application(s) for Revenue Sharing funding and may also administer projects approved for Revenue Sharing funding by the CTB; and

WHEREAS, Appendix A documents the funding allocated to each Project and shall be developed and included as an attachment to this agreement. Such attachment may be amended, revised or removed or an additional Appendix A may be added as additional projects or funding is approved by the CTB and allocated to the LOCALITY to finance the Project(s) within the term of this Agreement without the need to execute an additional project administration agreement; and

WHEREAS, current and future projects approved for Revenue Sharing funding by the CTB within the term of this agreement and subject to the terms and conditions specified herein shall be identified on a list which will be included as an attachment to this Agreement as Appendix B. Such attachment may be amended as additional projects are approved by the CTB and shall be signed by an authorized LOCALITY and VDOT official, without the need to execute an additional project administration agreement. If any active project with an existing agreement is incorporated herein, the original project agreement shall automatically terminate upon inclusion in this programmatic agreement of an updated Appendix A and an amended Appendix B to reflect that project; and

WHEREAS, both parties have concurred in the LOCALITY's administration of the phase(s) of work for the respective Project(s) listed in the attachments in accordance with applicable federal, state and local laws and regulations and that the locality will certify compliance with those laws and regulations as prescribed by the Department.

NOW THEREFORE, in consideration of the mutual premises contained herein, the parties hereto agree as follows:

1. This agreement shall be effective for an initial period of THREE fiscal years and may be extended by an addendum signed by each party for one additional term of THREE fiscal years unless a change in policy or the *Code* necessitates a change in terms and conditions before the term of this agreement shall have passed. This Agreement shall NOT extend beyond SIX fiscal years. In the event that a new agreement becomes necessary during the life of this Agreement, Appendix A and Appendix B may be incorporated within the new approved agreement upon mutual agreement by both parties.

2. The LOCALITY shall:
- a. Be responsible for all activities necessary to complete the noted phase(s) of each Project shown on the Appendix B and on the respective Project's Appendix A, except for activities, decisions, and approvals which are the responsibility of the DEPARTMENT, as required by federal or state laws and regulations or as otherwise agreed to, in writing, between the parties.
 - b. Receive individual prior written authorization from the DEPARTMENT to proceed with each project.
 - c. Administer the Project(s) in accordance with guidelines applicable to state funded Locally Administered Projects as published by the DEPARTMENT.
 - d. Provide certification by a LOCALITY official of compliance with applicable laws and regulations on the State Certification Form for State aid projects or in another manner as prescribed by the DEPARTMENT for each project included in Appendix B.
 - e. Maintain accurate and complete records of each Project's development of all expenditures and make such information available for inspection or auditing by the DEPARTMENT. Records and documentation for items for which reimbursement will be requested shall be maintained for not less than three (3) years following acceptance of the final voucher on each Project.
 - f. No more frequently than monthly, submit invoices with supporting documentation to the DEPARTMENT in the form prescribed by the DEPARTMENT. The supporting documentation shall include copies of related vendor invoices paid by the LOCALITY and also include an up-to-date Project summary and schedule tracking payment requests and adjustments.
 - g. Reimburse the DEPARTMENT all Project expenses incurred by the DEPARTMENT if, due to action or inaction solely by the LOCALITY, the project becomes ineligible for state reimbursement, or in the event the reimbursement provisions of Section 33.1-44 or Section 33.1-70.01 of the Code, or other applicable provisions of state law or regulations require such reimbursement.
 - h. Pay the DEPARTMENT the LOCALITY's matching funds for eligible Project expenses incurred by the DEPARTMENT in the performance of activities set forth in paragraph 3.a.
 - i. Administer the Project in accordance with all applicable federal, state, and local laws and regulations. Failure to fulfill these obligations may result in the forfeiture of state-aid reimbursements. DEPARTMENT and LOCALITY staffs will work together to cooperatively resolve any issues that are identified so as to avoid any forfeiture of state-aid funds.

- j. If legal services other than those provided by staff counsel are required in connection with condemnation proceedings associated with the acquisition of Right-of-Way, the LOCALITY will consult the DEPARTMENT to obtain an attorney from the list of outside counsel approved by the Office of the Attorney General. Costs associated with outside counsel services shall be reimbursable expenses of the project.
 - k. For projects on facilities not maintained by the DEPARTMENT, provide, or have others provide, maintenance of the Project upon completion, unless otherwise agreed to by the DEPARTMENT.
3. The DEPARTMENT shall:
- a. Perform any actions and provide any decisions and approvals which are the responsibility of the DEPARTMENT, as required by federal or state laws and regulations or as otherwise agreed to, in writing, between the parties.
 - b. Upon receipt of the LOCALITY's invoices pursuant to paragraph 2.f, reimburse the LOCALITY the cost of eligible Project expenses, as described in Appendix A. Such reimbursements shall be payable by the DEPARTMENT within 30 days of an acceptable submission by the LOCALITY.
 - c. If appropriate, submit invoices to the LOCALITY for the LOCALITY's share of eligible Project expenses incurred by the DEPARTMENT in the performance of activities pursuant to paragraph 2.a.
 - d. Audit the LOCALITY's Project records and documentation as may be required to verify LOCALITY compliance with applicable laws and regulations.
 - e. Make available to the LOCALITY guidelines to assist the parties in carrying out responsibilities under this Agreement.
4. Appendix A identifies the specific funding sources for each Project under this Agreement, phases of work to be administered by the LOCALITY, and additional project-specific requirements agreed to by the parties. There may be additional elements that, once identified, shall be addressed by the parties hereto in writing, which may require an amendment to this Agreement.
5. If designated by the DEPARTMENT, the LOCALITY is authorized to act as the DEPARTMENT's agent for the purpose of conducting survey work pursuant to Section 33.1-94 of the Code.
6. Nothing in this Agreement shall obligate the parties hereto to expend or provide any funds in excess of funds agreed upon in this Agreement or as shall have been included in an annual or other lawful appropriation. In the event the cost of a Project under this agreement is anticipated to exceed the allocation shown for such Project on the respective Appendix A, both parties agree to cooperate in providing additional funding for the Project or to terminate the Project before its cost exceeds the allocated amount, however

the DEPARTMENT and the LOCALITY shall not be obligated to provide additional funds beyond those appropriated pursuant to an annual or other lawful appropriation.

7. Nothing in this agreement shall be construed as a waiver of the LOCALITY's or the Commonwealth of Virginia's sovereign immunity.
8. The Parties mutually agree and acknowledge, in entering this Agreement, that the individuals acting on behalf of the Parties are acting within the scope of their official authority and the Parties agree that neither Party will bring a suit or assert a claim against any official, officer, or employee of either party, in their individual or personal capacity for a breach or violation of the terms of this Agreement or to otherwise enforce the terms and conditions of this Agreement. The foregoing notwithstanding, nothing in this subparagraph shall prevent the enforcement of the terms and conditions of this Agreement by or against either Party in a competent court of law.
9. The Parties mutually agree that no provision of this Agreement shall create in the public, or in any person or entity other than parties, rights as a third party beneficiary hereunder, or authorize any person or entity, not a party hereto, to maintain any action for, without limitation, personal injury, property damage, breach of contract, or return of money, or property, deposit(s), cancellation or forfeiture of bonds, financial instruments, pursuant to the terms of this of this Agreement or otherwise. Notwithstanding any other provision of this Agreement to the contrary, unless otherwise provided, the Parties agree that the LOCALITY or the DEPARTMENT shall not be bound by any agreements between either party and other persons or entities concerning any matter which is the subject of this Agreement, unless and until the LOCALITY or the DEPARTMENT has, in writing, received a true copy of such agreement(s) and has affirmatively agreed, in writing, to be bound by such Agreement.
10. This agreement may be terminated by either party upon 30 days advance written notice. Eligible Project expenses incurred through the date of termination shall be reimbursed in accordance with paragraphs 2.f, 2.g, and 3.b, subject to the limitations established in this Agreement and Appendix A. Should the LOCALITY unilaterally cancel a project agreement, the LOCALITY shall reimburse the DEPARTMENT all state funds reimbursed and expended in support of the project, unless otherwise mutually agreed-upon prior to termination.

THE LOCALITY and DEPARTMENT acknowledge and agree that this Agreement has been prepared jointly by the parties and shall be construed simply and in accordance with its fair meaning and not strictly for or against any party.

THE LOCALITY and the DEPARTMENT further agree that should Federal-aid Highway funds be added to any project, this agreement is no longer applicable to that project and the applicable Appendix A shall be removed from this agreement and the Standard Project Administration Agreement for Federal-aid Projects executed for that project.

THIS AGREEMENT, when properly executed, shall be binding upon both parties, their successors, and assigns.

IN WITNESS WHEREOF, each party hereto has caused this Agreement to be executed as of the day, month, and year first herein written.

MEMORANDUM OF UNDERSTANDING

PURPOSE

This Memorandum of Understanding (MOU) is to document the understanding and delineation of responsibilities for the City of Norfolk and the Department of Criminal Justice Services (DCJS) to support and ensure the proper development, administration and maintenance of the Pretrial and Community Corrections case management system (PTCC). The use of the PTCC system is a requirement for receiving state grant funds for the operations of the Norfolk Criminal Justice Services agency as mandated by the *Code of Virginia*. This MOU covers the following:

- Procurement, licensing and ownership of hardware and software
- Maintenance and administration of hardware and software
- Security and access allowances and restrictions
- Support roles and responsibilities
- Database backups

Each party will fund and be responsible for the cost of complying with their responsibilities under this MOU.

SCOPE OF SERVICES

The City of Norfolk understands and acknowledges its responsibilities as follows:

1. Comply with all terms, conditions and assurances of the state grant awarded under the Comprehensive Community Corrections Act (CCCA) and Pretrial Services Act (PSA).
2. Provide and house the server that will store the DCJS licensed instance of the Microsoft Structured Query Language (SQL) Server software application and all required Local Area Network (LAN) and Wide Area Network (WAN) connectivity.
3. Administer and maintain the server excluding the DCJS licensed instance of the SQL Server and associated SQL software application.
4. Allow the DCJS PTCC helpdesk and developer to maintain server administrator accounts with 24/7 access.
5. Resolve all end user issues not related to PTCC and DCJS licensed instance of the SQL Server or associated SQL software applications.
6. Provide network connectivity for DCJS and local probation and pretrial staff to the SQL Server instance, the desktop via Remote Desktop Protocol (RDP), network shares related to PTCC and their related ports.
7. Ensure that the folder containing the daily backup files of the SQL Server databases is included in the normal local backup process with the other PTCC related contents of the server; backing up the PTCC databases and related content is solely the responsibility of the City. Notify the PTCC helpdesk of any missing or failed DCJS generated SQL Server database backups within 24 hours of discovery of failed backup.
8. Support and assist the local probation and pretrial services agency with server side support needs affecting DCJS' ability to access and manage PTCC or SQL when requested by the DCJS PTCC helpdesk excluding the DCJS licensed instance of SQL Server and associated SQL software applications.

MEMORANDUM OF UNDERSTANDING

9. Provide a minimum of one month notice, to the extent possible, for any physical moves or hardware or network changes that impact the PTCC case management system or server.
10. Provide and maintain up-to-date and effective anti-virus, secure erasure, compression, and firewall software/hardware.
11. Provide and maintain up-to-date network security for the server which allows users and DCJS to access the server in the manner stated within this document.
12. Provide all computer equipment, software, and local networking and ensure compatibility with PTCC.
13. Provide the mandatory secure, 24/7 site-to-site Virtual Private Network (VPN) tunnel between local server and the DCJS offsite central servers through protocol and method as established by DCJS which includes the use of our Adaptive Security Appliance (ASA) and a local VPN router. This requires an always-on peer-to-peer connection between our central servers and the local server without additional applications or logins.
14. Enable DCJS to provide upgrades and enhancements that have been tested by DCJS and do not require additional testing to the SQL Server and PTCC case management system within a reasonable timeframe once DCJS notifies the local probation and pretrial services agency Director of any such upgrades or enhancements. For the purpose of this MOU, upgrades are changes that involve interaction and/or require some action or labor in the locality by the end user *and* requires DCJS to log on; enhancements are changes to existing reports/processes or new reports/processes that do not require any action by the locality and DCJS *may or may not* need to log on.
15. Ensure that the local parties responsible for complying with the stated obligations be notified via email or letter.
16. Permit DCJS to verify compliance with the terms of this MOU as a condition of grant funding. . If the City of Norfolk is out of compliance with the terms of this MOU, DCJS will notify the local probation and pretrial services agency Director and request a plan of action to comply. If the City does not take appropriate corrective action once notified of violations of the terms of this MOU, this noncompliance may result in freezing or termination of state grant funding.

The DCJS understands and acknowledges its responsibilities as follows:

1. Function as the party solely responsible for the development, administration, maintenance, management, access and support of the PTCC case management system, DCJS licensed instance of the SQL Server and associated SQL software applications.
2. Conduct scheduled backups of the SQL Server database and resolve all known failures to any DCJS generated backups as soon as practicable after notification by the City of failed backups.
3. Inform the local probation and pretrial services agency Director of planned outages and upgrades to SQL Server and PTCC case management system.

MEMORANDUM OF UNDERSTANDING

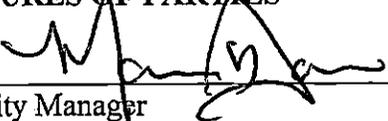

4. Restrict accounts and access to SQL Server and related databases under the same license to DCJS personnel.
5. Permit access to defendant or offender records only where permissible by law.
6. Assist the Administrator and Fiscal Agent's technology support staff in the implementation of its duties where permissible by law.
7. Purchase SQL Server license and make proof of licensure available upon request in order to satisfy local compliance.
8. Cooperate with other technology service providers in the provision of services at the request of the Administrator and Fiscal Agent.
9. If the City of Norfolk is out of compliance with the terms of this MOU, DCJS will notify the local agency probation and pretrial services Director and request a plan of action to comply. If the City does not take appropriate corrective action once notified of violations of the terms of this MOU, this noncompliance may result in freezing or termination of state grant funding.

PERIOD OF AGREEMENT

This MOU represents the understandings reached by DCJS and the locality and is effective upon the signature of both parties. This MOU automatically renews every two years as long as the City of Norfolk receives state funds for the operation of local probation and pretrial under the Comprehensive Community Corrections Act (CCCA) and Pretrial Services Act (PSA) of the Code of Virginia unless DCJS or the City notifies, in writing, a need to modify terms of the MOU. Both parties must agree upon any modifications. This MOU is not intended, and should not be construed to create any right or benefit, substantive or procedural, enforceable at law or otherwise by any third party against the parties, their parent agencies, the United States, or the officers, employees, agents, or other associated personnel thereof.

This MOU shall be deemed to be a Virginia contract and shall be governed as to all matters whether of validity, interpretations, obligations, performance or otherwise exclusively by the laws of the Commonwealth of Virginia, and all questions arising with respect thereto shall be determined in accordance with such laws. Regardless of where actually delivered and accepted, the MOU shall be deemed to have been delivered and accepted by the parties in the Commonwealth of Virginia.

These requirements can include deed restrictions, operation and maintenance plans, and insurance requirements, as dictated by the specific grant and project requirements.

(9) BREACH AND TERMINATION:

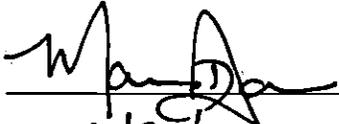

In the event of breach by the sub-grantee of this Agreement, VDEM shall provide written notice to the sub-grantee specifying the manner in which the Agreement has been breached. If a notice of breach is given and the sub-grantee has not substantially corrected the breach within 60 days of receipt of the written notice, VDEM shall have the right to terminate the Agreement. The sub-grantee shall be paid for no service rendered or expense incurred after receipt of the notice of termination, except such fees and expenses incurred prior to the effective date of termination that are necessary for curtailment of its work under the Agreement. Termination of this Agreement can occur as an effect of one of two results: First, as a result of the proper completion and closeout of this project. I. **Recommendation:** Adopt Ordinance

II. **Applicant:** City of Norfolk

III. **Description:**

This agenda item is an ordinance to approve a grant from the City of Norfolk (the "city") to Virginia Supportive Housing ("VSH"), from the Capital Improvement Program ("CIP") Fund, in the amount of \$707,000 for the construction of studio apartments for previously homeless single adults on property located at 2000 Church Street and known as Church Street Station.

IV. **Analysis**

The Norfolk City Council has announced a policy to end homelessness in Norfolk. The city, in accordance with this policy, desires to have housing developed as a tool to end homelessness. The Church Street Station studio apartment development will provide 40 units of permanent supportive housing for persons who were previously homeless and 40 units of housing for persons entering the workforce. Church Street Station will be the second such development built by VSH in Norfolk and the sixth project VSH has constructed through a unique regional partnership.

V. **Financial Impact**

The CIP Fund grant to VSH in the amount of \$707,000 was appropriated as part of the FY 2014 (\$207,000) and the FY 2015 (\$500,000) budget process. The funds granted are to offset a portion of the construction costs associated with the \$13.9 million project.

AN ORDINANCE TO AMEND AND REORDAIN SUBSECTIONS (A) AND (G) OF SECTIONS 24-203 AND 24-203.1, SUBSECTION (C) OF SECTION 24-203.1 AND ADD A SUBSECTION (H) TO SECTION 24-203 OF THE NORFOLK CITY CODE **SO AS TO** REQUIRE PRESERVATION OF AT LEAST FIFTY-ONE PERCENT (51%) OF THE BUILDING, LIMIT ELIGIBLE EXPANSION, REDUCE THE MINIMUM AGE REQUIREMENT OF COMMERCIAL AND MULTIFAMILY RENOVATION PROPERTIES FROM FIFTY (50) TO FORTY (40) YEARS, TO PERMIT CHANGE IN USE AND TO PROVIDE FOR AN ADJUSTED ASSESSMENT IN ORDER TO MORE ACCURATELY ASSESS THE INCREASED VALUE.

- - -

BE IT ORDAINED by the Council of the City of Norfolk:

Section 1:- That to require preservation of at least fifty-one percent (51%) of the building, limit eligible expansion to vertical and integrated horizontal expansion, reduce the minimum age from 50 to 40 years, and to permit change in use, subsections (a) and (g) of Section 24-203 of the Norfolk City Code, 1979, are hereby amended and reordained to read as follows:

Sec. 24-203. Tax abatement program for renovation of residential properties.

(a) Tax abatement under this section shall be permitted only on the substantial renovation of properties for residential use that are fifteen (15) years of age or more. Tax abatement under this section shall be permitted for multifamily residential properties that are forty (40) years of age or more; except that tax abatement under this section shall be permitted for properties that are fifteen (15) years of age or more where the renovation is made to multifamily apartments to convert such properties to residential condominiums. The age of the building will be calculated from the Certificate of Occupancy or other final inspection. This program shall be in effect throughout the city. Only residential

properties and multifamily residential properties being renovated and preserving fifty-one percent (51%) of the square footage of the original building being renovated will be eligible for abatement. Renovation shall include improvements expanding the qualifying properties only when vertically expanding the qualifying structure or the horizontal expansion is an integrated part of the structure containing the pre-existing units and are part of the overall renovation project. The real estate assessor's determination of whether horizontal expansion qualifies as fully integrated shall be final and nonappealable. For purposes of this section, "residential properties" shall mean properties of four (4) or fewer units; "multifamily residential properties" shall mean properties of five (5) or more units; and "residential condominiums" shall mean multiple-unit buildings which consist of separately owned, individual residential units with all unit owners having a right to use the common elements of the property and in which no owner shall own more than twenty (20) percent of all of the units after three (3) years from commencement of the tax abatement. The ownership percentage and time limitation shall be applied retroactively to properties previously approved and will commence as of the original date of such tax abatement.

(g) No application submitted under this section shall be approved if the property owner is not current in payment of all taxes and assessments due the city. If a tax abatement is approved and a property owner (including any subsequent owner) thereafter fails to remain current in the payment of all city taxes and assessments, the property shall be immediately and finally removed from the tax abatement program.

Section 2:- That to provide for an adjusted assessment in order to more accurately assess the increased value, Section 24-203 of the Norfolk City Code, 1979, is hereby amended and reordained to add one new subsection (h) to read as follows:

(h) For properties on which renovation activities were completed on or after September 2012, upon completion of the renovation activities, and subject to the confirmation of such action as is deemed necessary by the assessor, the assessor shall determine the initial and adjusted tax abatement

amounts where (i) the initial abatement amount is equal to the increase in assessed value of the property at the time of completion of renovation activities as determined by the assessor and (ii) the adjusted tax abatement amount is equal to the projected increase in assessed value of the property at the time the property achieves stabilized occupancy as determined by the assessor (in the event that the renovation activities are completed for a qualifying property prior to the effective date of this ordinance, the adjusted tax abatement amount shall be determined by the assessor prior to the initial term).

The tax abatement eligibility and abatement amount shall be certified in writing by the assessor to the city treasurer who shall then implement the tax abatement. The city assessor's determination shall be final and not subject to appeal. The initial tax abatement established by this section shall commence as of the first day of the quarter following completion of the renovation. The resulting increase in assessed value ("initial abatement amount") shall not be recognized for real estate tax purposes for a period of two (2) years beginning the first day of the quarter immediately after the renovation activities have been completed.

The adjusted tax abatement established by this section shall commence as of the first day of the quarter two (2) years following completion of the renovation. The resulting increase in assessed value ("adjusted abatement amount") shall not be recognized for real estate tax purposes for a period of twelve (12) years for a property located in an area designated as an enterprise zone, beginning the first day of the quarter two years after the renovation activities have been completed. For all other properties on which renovation activities were completed on or after September 2012, the resulting increase in assessed value "adjusted abatement amount" shall not be recognized for real estate tax purposes for a period of eight (8) years, beginning the quarter two years after completion of the renovation activities have been completed. Upon the completion of eight (8) years of exemption for the adjusted abatement amount for a property not located in an area designated as an enterprise zone, the abatement amount

shall be decreased to the extent of twenty (20) percent in each succeeding year; whereupon after the completion of the fourteenth year during which the owner has received an initial or adjusted abatement, the property shall be taxed at one hundred (100) percent of its fair market value.

Notwithstanding any provision to the contrary, (i) the initial and adjusted abatement amounts shall not be increased after the city assessor establishes them; accordingly, any subsequent increases in value or rates will result in increased tax payments, and (ii) in no event shall the initial or adjusted abatements result in any decrease in the base assessed value of the property determined by the city assessor at the time of the certification of eligibility.

Section 3:- That to require preservation of at least fifty-one percent (51%) of the building, reduce the minimum age from 50 to 40 years, limit eligible expansion to vertical and horizontal expansion, and to permit change in use, subsections (a), (c) and (g) of Section 24-203.1 of the Norfolk City Code, 1979, are hereby amended and reordained to read as follows:

Sec. 24-203.1. Tax abatement program for renovation
of commercial or industrial structures.

(a) Tax abatement under this section shall be permitted only on the substantial rehabilitation or renovation of properties for commercial or industrial use that are forty (40) years of age or more, or twenty (20) years of age if the property is located in an area designated as an enterprise zone by the commonwealth when at least fifty-one percent (51%) of the square footage of the original building is being preserved. This program shall be in effect throughout the city. The age of the building will be calculated from the Certificate of Occupancy or other final inspection.

(c) In order to be eligible for abatement, the renovation must contribute a minimum of forty (40) percent increase in the assessed value of the property. This minimum increase must be determined and certified by the city real estate assessor prior to the commencement of renovation activities. Renovation eligible for abatement shall include expansion of the

improvements only when the structure containing the expansion is vertical or the horizontal expansion is a fully integrated part of the previously existing structure and is part of the overall renovation project. The real estate assessor's determination of whether horizontal expansion qualifies as fully integrated shall be final and nonappealable. The real estate assessor may utilize input of other city officers where necessary or appropriate to assist in the determination of anticipated increases in assessed value; however, the method of assessment shall be governed by generally accepted methods of appraisal assessment. Abatement shall be contingent upon approval of building exteriors by the director of planning, based upon compatibility, quality, value enhancement, bulk, massing and height. Properties located in historic districts will be reviewed for certificates of appropriateness.

(g) No application submitted under this section shall be approved if the property owner is not current in payment of all taxes and assessments due the city. If a tax abatement is approved and a property owner (including any subsequent owner) thereafter fails to remain current in the payment of all city taxes and assessments, the property shall be immediately and finally removed from the tax abatement program.

Section 4:- That this ordinance shall be in effect from and after its date of adoption.
